

## Bass Drum Pedal

*Think of the blues the bass drummer got when he was replaced one day by a simple metal pedal. He shows up, and his bass drum's on the floor, and another man's playing his drum with his foot. —James Keller*

That drummer's hands  
each like one man.

The foot, too.

Congo Square, French Quarter  
bass drummer  
lost his job to a pedal  
swung by a simple little metal spring.
